WELCOME MESSAGE

It's a matter of great pride and pleasure for me to welcome you all for the annual national conference of the Association of Cutaneous Surgeons of India (ACSICON 2023) at Nagpur, the Orange city and the Tiger capital of India.

The theme of ACSICON 2023 is "Embracing Technology, Empowering Dermatology." In the conference, you will be exposed to a plethora of latest developments in the field of dermatosurgery, energy-based devices and aesthetic dermatology. We have designed the scientific program in such a manner, that it accommodates the needs of delegates at all stages of their career – whether the young emerging ones or those who are already well-established in their practice.

We have chosen excellent topics for the one-day workshop which includes live demonstration, video demonstration and hands-on at the mesmerizingly beautiful campus of AIIMS, Nagpur and Hotel Le Méridien. It includes all the topics essential for the creation of a skilled dermatosurgeon like suturing techniques, all kinds of surgical procedures right from skin biopsy to autologous fat transfer, injectables, platelet products, sclerotherapy, chemical peels and so on. The workshops will be followed by the conference for next two days where you will get a chance to attend and interact with the stalwarts in the field of dermatosurgery, both from India and abroad. For the future generation of dermatosurgeons, we will also be having the free papers, award papers, e-posters, quiz and innovation award etc.

Our organizing team has been working hard for the last 1 year to make this dream come true. I request you all to register for the conference at the earliest, if not done so far. Looking forward to welcome you all in this extravaganza of knowledge and skill.

Thank you.

Dr Sanjiv Choudhary
Scientific Chairperson,
ACSICON 2023
